## BIOGRAPHY

**Date of Birth: 16/04/2003**

**Place of Birth: Faenza ( Ravenna)**

**2023- CURRENT: ECOGEST NORTH AMERICA INC.**

**Member of the Board of Directors of Ecogest North America Inc.**

**2022 - CURRENT: ECOGEST NORTH AMERICA INC.**

**Member of the Board of Officers of Ecogest North America Inc.**

During 2023, starting in the first quarter of the year, I started to participate in foreign travels focusing on the development of Ecogest North America in Toronto, which operates in the same field as Ecogest SpA, progressively dealing with business and technical relations with local partners - subcontracting companies - and participating in some institutional events called by the MTO - Ministry of Transportation Infrastructure in Toronto - aimed at accompanying the development of foreign companies in Canada that are involved in infrastructure construction and maintenance.

In May 2023 I became a member of the board of Directors of Ecogest North America INC after the acquisition of a 30 % minority stake in Ecogest North America, by the Toronto-based SKYGRid INC. group and I am currently involved on a monthly basis in following the growth activities of the Canadian subsidiary, directly from the Toronto offices.

## **2022 – CURRENT: ECOGEST SPA**

### **Specialized in Innovation and Technologies Development**

#### **Vice President and Member of the Board of Directors of Ecogest SpA;**

Starting in 2022, I began a path of technical and operational in-depth analysis, supporting the logistics and construction site management in choosing strategies for the renewal of the machine fleet and the optimization of the maintenance sector of the company machine fleet, also starting an autonomous research activity for best technical solutions, in the context of technological innovation of self-propelled operating machines to determine an overall technological upgrade of the company operating system.

In 2023, after the company purchased a vehicle used as a mobile control room equipped with a professional drone take-off/landing runway, I began professional courses for the qualification to pilot professional drones for the aerial survey of infrastructures and works of art.

## **2021 – CURRENT: GREENWAY GROUP SRL**

### **Member of the board and Shareholder**

A minority shareholder in the family holding company since 2021 and a member of the company's Board of Directors, I follow institutional activities together with the family, aimed at identifying new possible investments in small and medium-sized companies, innovative start-ups, and also follow research activities, in the residential real estate sector, for the identification of new acquisition transactions.

As of March 2023, Greenway Group becomes a minority shareholder of NPLUS North America Ltd, a company owned by the Riello family (Aermec Group) that deals with the production, installation, and maintenance of monitoring sensors on works of art (bridges, viaducts; buildings, dams, etc.) that begins a commercial approach to the North Canadian market and then expands to the United States. Consequent to this operation, I begin a path of personal technical deepening to the technical-scientific issues of this engineering discipline and then start from 2024 to also follow part of its commercial developments in the Canadian territory.
